

VORTEX FLOW METER

- ✓ STEAM MEASUREMENT
- ✓ BEST CHOICE OF TRADE SETTLEMENT

1.0% Accuracy Measurement

New High-tech
Enterprise

CE

ATEX

ISO

ADAPT TO VARIOUS COMPLEX CONDITIONS

One flow meter, Different Medium

Steam, air and liquid all workable
Anti-interference, anti-vibration, resist high temperature

EVERY DETAIL OF PRODUCT HIGHLIGHTS THE BRAND AND QUALITY

Explosion-proof

Resist High
Temperature

Accurate
Measurement

Long Service Life

Temperature And
Pressure Compensation
Optional

24/7
Sale Service

PRODUCT FEATURES

NO.1

Low Power Consumption LCD Display

Big LCD display with back light is easy to debug and observe

Instantaneous Flow

Total Flow

Frequency, Density,
Temperature,
Current or Percentage

NO.2

Anti-vibration, Anti-interference Digital Circuit Board

Dual Power

Embedded 3.6V Lithium battery, sustain more than 2 years.

3.6V

Lithium Battery

DC 24V

Power Supply

SAFE

Eco-efficient

NO.4

High sensitivity, high temperature sensor

Medium temperature 250 °C (standard), 350 °C (high temperature) optional.

- Adopt Japan technology to improve product stability and accuracy.
- Low pressure loss, high reliability, less maintenance.
- Integral forging, anti-rust, long service life.
- Body Material SS304 , **Optional SS316.**

NO.5

Welding

Advanced welding technology, durable structure, welding seam smooth and beautiful

NO.6

Triangular Prism

Integrally forged triangular prism, more stable and safe

NO.7

High Stability And Accuracy

Built-in integrated flow and temperature sensor, no burrs, ensure stable signal and high accuracy measurement.

- Impact testing, no leakage, stable signal
- Built-in four piezoelectric crystals, eliminates interference and zero point drift

**Temperature & Flow integrated sensor
(with temperature compensation)**

No.8

Anti-vibration Detection

Anti-vibration testing, under different amplitude & vibration, make sure measuring accuracy under different working condition.

Compact temperature & pressure compensation vortex flow meter (OPTIONAL)

**Standard Vortex
Flow Meter**

Pressure Sensor

Temperature &
Flow integral
sensor

**Compact Temperature &
Pressure Compensation
Vortex Flow Meter**

Temperature and pressure compensation can
choose one or two options

Remote Vortex Flow Meter

① Totalizer

Read temperature, pressure, flow at same time, easy to observe data

② GPRS

Realize wireless remote reading, easy to receive signal

③ Pressure Transmitter

Realize pressure compensation

④ Platinum Resistor PT100

Realize temperature compensation

Optional functions select at will

PRODUCT PARAMETERS

■ Technical Performance Parameters

Measured Medium	Liquid, Gas, Steam
Medium Temp	-40℃~+200℃; -40℃~+280℃; 40℃~+350℃
Nominal Pressure	1.6MPa;2.5MPa;4.0MPa;6.4MPa(Other pressure can be custom,need consult supplier)
Accuracy	1.0%(Flange), 1.5%(Insertion)
Measuring range ratio	1:10(Standard air condition as reference) 1:15(Liquid)
Flow Range	Liquid:0.4-7.0m/s; Gas:4.0-60.0m/s; Steam:5.0-70.0m/s
Specifications	DN15-DN300(Flange), DN80-DN2000(Insertion), DN15-DN100(Thread), DN15-DN300(Wafer), DN15-DN100(Sanitary)
Material	SS304(Standard), SS316(Optional)
Pressure Loss Coefficient	Cd≤2.6
Vibration Acceleration Allowed	≤0.2g
IEP ATEX	II 1G Ex ia IIC T5 Ga
Ambient Condition	Ambient Temp:-40℃-65℃(Non-explosion-proof site); -20℃-55℃(Explosion-proof site) Relative Humidity:≤85% Pressure:86kPa-106kPa
Power Supply	12-24V/DC or 3.6V battery powered
Signal Output	Pulse frequency signal2-3000Hz, Low level≤1V, high level≥6V
	Two-wire system 4-20 signal(isolated output), Load≤500

■ Flow Range

Size (mm)	Liquid(Reference medium:normal temperature water, m³/h)		Gas(Reference medium:20℃, 101325pa condition air, m³/h)	
	Standard	Extended	Standard	Extended
15	0.8~6	0.5~8	6~40	5~50
20	1~8	0.5~12	8~50	6~60
25	1.5~12	0.8~16	10~80	8~120
40	2.5~30	2~40	25~200	20~300
50	3~50	2.5~60	30~300	25~500
65	5~80	4~100	50~500	40~800
80	8~120	6~160	80~800	60~1200
100	12~200	8~250	120~1200	100~2000
125	20~300	12~400	160~1600	150~3000
150	30~400	18~600	250~2500	200~4000
200	50~800	30~1200	400~4000	350~8000
250	80~1200	40~1600	600~6000	500~12000
300	100~1600	60~2500	1000~10000	600~16000
400	200~3000	120~5000	1600~16000	1000~25000
500	300~5000	200~8000	2500~25000	1600~40000
600	500~8000	300~10000	4000~40000	2500~60000

Superheated Steam Density Value (relative pressure & temperature) Unit: Kg/m3

Absolute Pressure (Mpa)	Temperature(°C)					
	150	200	250	300	350	400
0.1	0.52	0.46	0.42	0.38		
0.15	0.78	0.70	0.62	0.57	0.52	0.49
0.2	1.04	0.93	0.83	0.76	0.69	0.65
0.25	1.31	1.16	1.04	0.95	0.87	0.81
0.33	1.58	1.39	1.25	1.14	1.05	0.97
0.35	1.85	1.63	1.46	1.33	1.22	1.13
0.4	2.12	1.87	1.68	1.52	1.40	1.29
0.5		2.35	2.11	1.91	1.75	1.62
0.6		2.84	2.54	2.30	2.11	1.95
0.7		3.33	2.97	2.69	2.46	2.27
0.8		3.83	3.41	3.08	2.82	2.60
1.0		4.86	4.30	3.88	3.54	3.26
1.2		5.91	5.20	4.67	4.26	3.92
1.5		7.55	6.58	5.89	5.36	4.93
2.0			8.968	7.97	7.21	6.62
2.5			11.5	10.1	9.11	8.33
3.0			14.2	12.3	11.1	10.1
3.5			17.0	14.6	13.0	11.8
4.0				17.0	15.1	13.6

Model Select

Vortex flow meter sensor model describe as: LUGB-2-X X XX-X

Special Mark(Table 1)

Nominal Diameter(Table 2)

Measured Medium(Table 3)

Connection Mode(Table 4)
